DETECTABLE TAPES
WARNING TAPES

SOPHIE LEE CO., LTD.

UNDERGROUND DETECTABLE TAPE

Made of three layer film, one aluminium layer two plastic layers
 Each roll is individually shrunk wrapped or packed in apoly bag
 Provides location and identification of buried utility lines.
 Frequently used to product non-metallic cables and pipelines
 before damage can occur (gas pipe, water pipe, fiber pipe).
 Detectable warning tape consists three different layer of film, with
 a solid aluminium foil core. The imprinted warning message was
 printed on the aluminium layer permanently bold black-lettered.

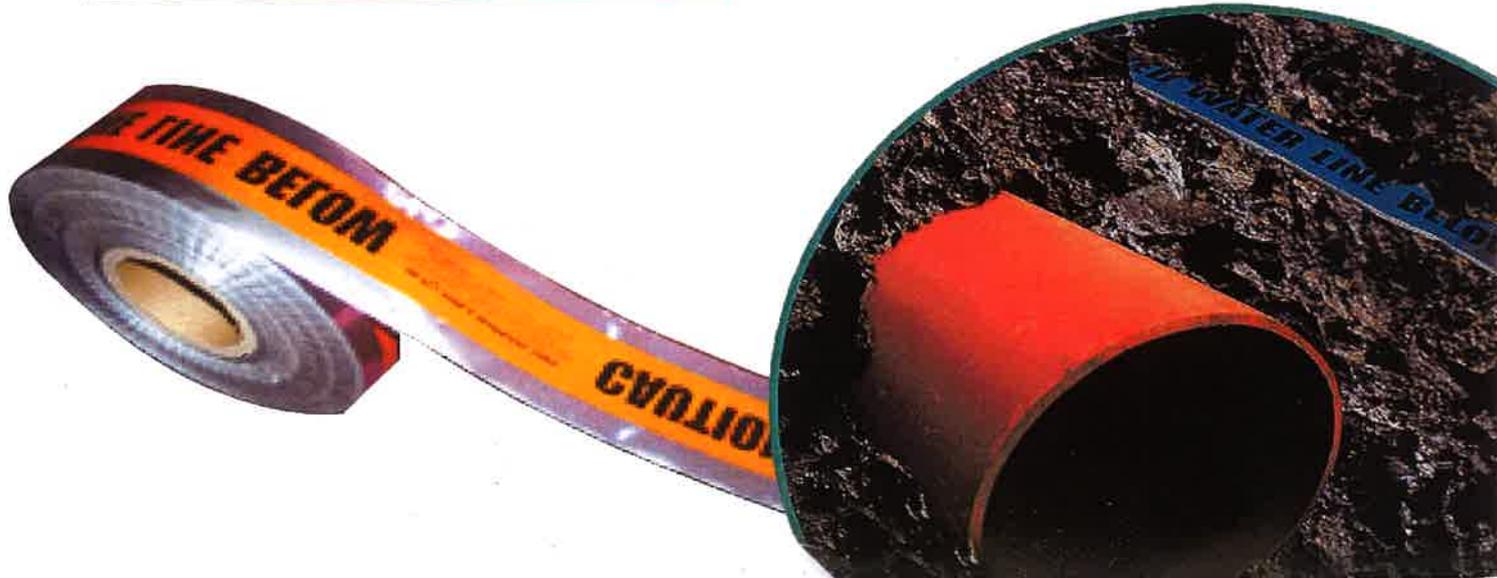

I SIZE

Available in 3" x 1000 and 6" x 1000

II LEGENDS/COLORS & IMPRINTS

CAUTION BURIED ----- LINE BELOW
 (Red Or Yellow-Electric), (Yellow-Gas),(Blue-Water)
 (Green-Sewer), (Orange-Fiber Optic-Telephone-Oil)
 Please see some of list for example
